Day Four: God Creates Creatures

Based on
Genesis 1:20-25
Book of Job

God said,

“Let the waters be filled
with many living things,
and let there be birds
to fly in the air above the earth.”

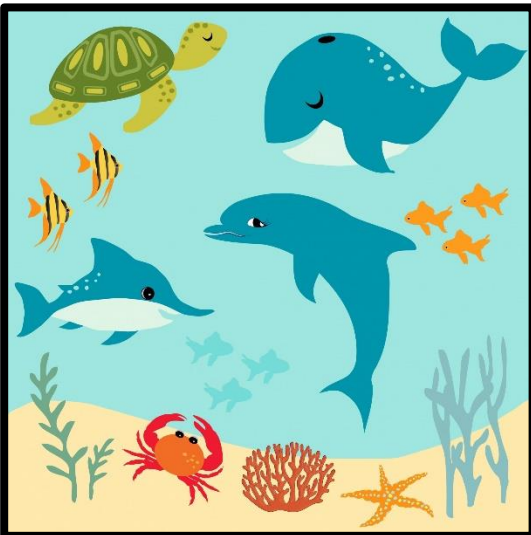

God made all the animals in the seas.

God created large sea animals like whales and sharks.

God created small sea animals like shrimp and seahorses.

God created fish and other sea animals of every size.

God created all the birds with wings.

God created large birds like the ostrich and eagle.

And God created small birds like the hummingbird.

God created birds of every size to fly all over the earth.

God even made the penguin who does its best flying under water!

**And God saw that it was good.
God blessed all the animals of the sea
and birds in the air and said,
“Multiply and stock the oceans!”**

**“Let your numbers increase
and fill the earth!”**

**And there was evening and there was
morning, the fifth day.**

God said, "Let the earth be full of many living things!"

God created all the animals that walk and creep on the earth.

God created big animals like the elephant.

God created small crawling animals like the ant.

God made every kind of animal:

**the wild
animals,**

insects and bugs,

and even tame farm animals and pets.

And God saw that it was good.

Did you know there are some animals described in the Bible that we don't see today? The Book of Job describes some of these mythical animals.

Job lived in the land of Uz and was a very good and faithful man. God spoke to Job about all the amazing things God had made in Creation.

The Unicorn

God told Job about the unicorn.

**God asked Job,
“Would the unicorn work
for you on your farm?”**

**Would the unicorn sleep
in your barn?”**

The Behemoth

God told Job about the Behemoth.

**It eats grass like an ox. Its legs are
strong and powerful!**

Its tail is like a tree trunk!

It can swim easily in the fastest river!

**God asked Job,
“Do you think you could catch it and
put a ring in its nose to lead it?”**

The Leviathan

**God told Job about the Leviathan.
Its back is made of shields in rows
that an arrow cannot go through.
Flame comes out of its mouth and
smoke comes out of its nostrils.**

**“Could you catch it with a fishhook?
Could you put it on a leash like a pet
for your children?”**

**God reminded Job that no one was as
amazing as God. No one could do all
the things that God had done.**
